

Innovation Design

Disadvantage of ordinary weigh bridge : large in size ; heavy self weight ; inconvenient to move ; only can be used in fixed area.
Advantage of D strip : compositive weigh module; lightweight material ; no-wired design ; can be taken to anywhere you need.

Demonstration

Put cartons or pallet on D1 strip — open its APP - get weight information on APP

Application case

Common challenge in express logistic — dispute on billing

- Steps before billing :**
- 1) collect the goods from customer, but can't finish billing process due to no proper weighing tool.
 - 2) take goods to freight yard, and weigh on fixed weigh bridge , then send freight billing information to customer
 - 3) customers usually double the accuracy of freight , because the have't monitored the weighing process.

Good solution - portative D1 strip scale
Use STRIP SCALE to finish weighing process to customer's face, and give freight bill immediately.
No dispute , better customer experience.

Strip Scale Specifications

Model	D1	D1-L	D2
Parameter			
Size	80cm*8cm*5.5cm	100cm*8cm*5.5cm	80cm*7cm*2.5cm
Weight	5kg	5.8kg	1.6kg
Material	Structural aluminum		
Built-in battery	3.7v 9000mAh	3.7v 9000mAh	3.7v 1500mAh
Weighing			
Capacity (single))	1-1500kg	1-1500kg	1-500kg
Composite deviation	1‰ ^①		
Maximum working time	100hours ^②	100hours ^②	48hours ^②
Charging time	6hours ^③	6hours ^③	2hours ^③
Sensor			
Material	Alloy Steel	Alloy Steel	Aluminum alloy
Quantity	2		
Working Temperature	-20℃—65℃		
APP			
System	Android 6.0 or more		
Connection	Bluetooth		
Optional			
Bluetooth printer	Thermal label printer		
Meter	PDA		

- ① The actual weighing accuracy may be affected by the ground conditions
② ③ This data is the theoretical calculation value, and the actual data may have deviation

Application Scenarios

STRIP SCALE

Portative Weighbridge

STRIP SCALE

Portative Weighbridge

- Large Range
- Lightweight
- Small Size
- Strong
- Bluetooth
- APP Easy To Use

Matched APP

EASY TO USE

- Zero-reset
- Print (optional Bluetooth printer necessary)
- Weighing record search
- Unit change

D1

WEIGHT 5kg

RANGE 1500kg

D2

WEIGHT 1.6kg

RANGE 500kg

All-aluminum Body *

STURDY AND DURABLE

*The scale body is all-aluminum monocoque, excellent in strength .
So it can promise the accuracy of weighing, even in bad working conditions.
